TESTED MAGNETIC LOW VOLTAGE (MLV) DIMMERS

Luminaire	Dimmer					
	Manufacturer	Family	Model	Power Rating	Range*	Note
2081	Lutron	Diva	DVLV-600	600W	20% - 100%	
		Skylark	SLV-600P	600W	15% - 100%	Best performance
		Skylark	S-10P	1000W		Not recommended

*Low end of this range is determined by output current which may not directly translate to the perceived light output

WAC Lighting fixtures are compatible with a variety of dimmers. For your convenience we have included a compatibility chart showing dimmers which have been tested with our products. The recommended list below is based upon testing conducted in a lab, and the results can vary in certain field applications due to a number of factors. Exclusion from the list does not imply incompatibility, just that it has not been tested by WAC Lighting. Please reference the dimmer manufacturer's instructions for installation, or contact a WAC lighting professional at 800-526-2588.
